ERCOT Public API Client/Developer Documentation

API definition

[Changelog](#)

Client/Developer RESTful web services documentation for ERCOT Market Information List (EMIL) products.

2-Day Aggregate Energy Demand Curves

2-Day Aggregate Energy Demand Curves

NP3-907-EX

Request

GET `https://api.ercot.com/api/public-reports/np3-907-ex/2d_agg_edc[?deliveryDateFrom][&deliveryDateTo][&hourEndingFrom][&hourEndingTo][&MWFrom][&MWTo][&priceFrom][&priceTo][&page][&size][&sort][&dir]`

Request parameters

Name	In	Required	Type
deliveryDateFrom	query	false	string
deliveryDateTo	query	false	string
hourEndingFrom	query	false	integer
hourEndingTo	query	false	integer
MWFrom	query	false	number
MWTo	query	false	number
priceFrom	query	false	number
priceTo	query	false	number
page	query	false	integer
size	query	false	integer
sort	query	false	string
dir	query	false	string

Request headers

Name	Required	Type	Description
Ocp-Apim-Subsc...	true	string	The subscrip... Public API

Request body

Response: 200 OK

OK The operation completed successfully.

application/json

Report

Represents report data search results from any EMIL artifact report query.

Name	Required	Type	Description
_meta	false	ResultMetadata	Re... spe
report	false	ReportMetadata	Re... rep Proc
fields	false	Field[]	

data	false	object
links	false	Link[]

default

DEFAULT - JSON

 Copy

Definitions

Name	Description
Exception	Represents any exception encountered while access API endpoints.
Field	Represents report data field.
Link	
QueryMetadata	Represents query parameter summary for the specified query results.
Report	Represents report data search results from any EMIL artifact report query.
ReportMetadata	Represents general metadata for the specified report artifact, including the parent EMIL Product identifier.
ResultMetadata	Represents record and paging summary for the specified query results.

Exception

Represents any exception encountered while access API endpoints.

Name	Required	Type	Descrip
------	----------	------	---------

timestamp	false	string (date-time)
code	false	integer (int32)
status	false	string
message	false	string
data	false	object

Field

Represents report data field.

Name	Required	Type	Descriptio
name	false	string	
label	false	string	
cardinality	false	integer (int32)	
dataType	false	string	
searchable	false	boolean	
sortable	false	boolean	
hasRange	false	boolean	

Link

Name	Required	Type	Descriptio
rel	false	string	

href	false	string
hreflang	false	string
media	false	string
title	false	string
type	false	string
deprecation	false	string
profile	false	string
name	false	string

QueryMetadata

Represents query parameter summary for the specified query results.

Name	Required	Type	Descriptio
parameterCount	false	integer (int32)	
parameters	false	object	
sortedBy	false	string	

Report

Represents report data search results from any EMIL artifact report query.

Name	Required	Type	Descriptio
_meta	false	ResultMetadata	Represe specifie

report	false	ReportMetadata	Represent report a Product
fields	false	Field[]	
data	false	object	
links	false	Link[]	

ReportMetadata

Represents general metadata for the specified report artifact, including the parent EMIL Product identifier.

Name	Required	Type	Description
reportName	false	string	
reportDisplayNa...	false	string	
reportId	false	string	
reportEMIL	false	string	
downloadLimit	false	integer (int32)	

ResultMetadata

Represents record and paging summary for the specified query results.

Name	Required	Type	Description
totalRecords	false	integer (int64)	

pageSize	false	integer (int32)
totalPages	false	integer (int32)
